## coby electronics

### The Best Eye and Ear Candy Anywhere!

When it comes to presenting VIPs and celebrities with interesting and innovative goods for their pre-award show retreats, the folks at **Backstage Creations** are just as picky about the featured gifts as they are about who will be gifted. With that in mind, it probably says a lot that **Coby Electronics** has presented their wares at two of their biggest retreats -- The **SAG Awards** and The **ALMA Awards**. In addition to trophies or opportunities to present them, celebrities such as **Jimmy Smits, Jessica Alba, Paulina Rubio, Constance Marie, America Ferrara, Brian McKnight, Gloria Estefan, Danny Pino, Enrique Murciano, Adam Rodriguez** and **Victor Manuelle** were honored with Coby Electronics portable **DVD player, the TF-DVD7107** and an **MP3 player, the MP-C841**

In a world where airline travel will become more streamlined, even for the most pampered traveler, **Coby's portable DVD player** is a welcomed addition to one's travel survival kit thanks to its compact portable design, a **7" Widescreen TFT Color Display**, anti-skip circuitry, composite video out, multiple subtitles/viewing angles, slow/fast motion Play, zoom operation, coaxial digital audio output and an audio/video input jack for games, VCR or other AV sources. Accessories such as a full function remote control, AV Cable, 100-240V UL listed AC adapter and DC car adapter complete the package.

While the market is now full of MP3 players, **Coby Electronic's MP3 player, the MP-C841** compares nicely, with such features as a 256 MB built-in flash memory, mobile music, data, documents and pictures storage, direct connection into USB port (no cable required), plug and play (no software required for Windows ME/XP/2000 and Mac OS X), voice recording up to 16 hours, displays song title, album and artist, digital preset EQ's (normal, classic, rock, jazz & pop) and more...

Coby Electronics Corporation, which is headquartered in New York City, has risen through the ranks of the consumer electronics industry since its launch in 1990. It is dedicated to redefining the way consumer electronics products are created, enhancing their ability to lead the industry through a challenging economy. Coby is focused on offering innovative, feature-rich products and solutions. Within the past decade, Coby's team of inventors, engineers, and designers have earned a number of U.S. patents and design awards, with several additional patents pending.

The products are available via [www.amazon.com](http://www.amazon.com) and more information on Coby Electronics can be found at [www.cobyusa.com](http://www.cobyusa.com).
